

ASAD-UR-RAHMAN

Frontend Developer

Lahore, Pakistan | +92 304 4477073 | asadrahman9998@gmail.com | <https://github.com/Asad-ur-Rehman9998> | <https://www.linkedin.com/in/asad-ur-rahman-5754432b4/> | <https://portfolio-seven-fawn-68.vercel.app/>

PROFESSIONAL SUMMARY

Frontend Developer with one year of professional experience at Digiware Solutions in AI data annotation, combined with hands-on experience building responsive, user-centered web applications using HTML5, CSS3, JavaScript (ES6+), React.js, and Tailwind CSS. Final-year BS IT (Honors) student at the University of Lahore with practical experience across multiple frontend projects, a personal portfolio website, and a team-developed on-demand home services platform. Skilled in component-driven development, responsive web design, and version control with Git and GitHub. Familiar with Django for full-stack integration and Flutter for cross-platform UI development. Passionate about delivering clean interfaces, writing maintainable code, and continuously growing through automated software testing and modern frontend practices.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Responsive Web Design, Component-Based Architecture, Basic UI/UX Principles

Languages: JavaScript (ES6+), Python

Frameworks: React.js, Flutter (Basic), Django

Styling: CSS3, Tailwind CSS

Tools: Visual Studio Code, Linux, Shell Scripting (Basic), DevOps (Basic)

Version Control: Git, GitHub

Backend Familiarity: Django, MySQL, RESTful APIs

Other Technologies: WordPress (Custom Themes), Matplotlib, Automated Software Testing (In Progress)

PROFESSIONAL EXPERIENCE

AI Data Annotator | Digiware Solutions

Jul 2025 – Present | Lahore, Pakistan

- Annotated and labeled structured and unstructured data to support AI and machine learning model training.
- Reviewed annotations for accuracy, consistency, and adherence to project guidelines and quality standards.
- Met productivity and quality targets in a detail-oriented, deadline-driven workflow.
- Collaborated with team leads to resolve edge cases and improve labeling consistency across datasets.

PROJECTS

On-Demand Home Services Platform — Final Year Project (Team)

React.js | JavaScript | Django | Google Maps API | Tailwind CSS

- Developed a responsive frontend for an on-demand home services web application using React.js and modern UI libraries.

- Implemented interactive Google Maps API integration, enabling users to discover and visualize nearby service providers.
- Built an intuitive booking system with form validation and user authentication features.
- Collaborated in a team environment to deliver a full-stack platform connecting users with on-demand home appliance services.

Food Ordering Application

Flutter | RESTful APIs

- Built a full-featured mobile application with product catalog, shopping cart, and checkout functionality.
- Created reusable UI components to maintain consistent design and improve development efficiency.
- Integrated mock RESTful APIs for product inventory and order management data.

Developer Portfolio Website

HTML5 | CSS3 | JavaScript | Responsive Web Design

- Designed and developed a personal portfolio website to showcase frontend projects and technical skills.
- Implemented responsive layouts optimized for desktop, tablet, and mobile viewports.
- Deployed on Vercel using React, TypeScript, and Tailwind CSS with a modern 3D UI.

Live Portfolio: <https://portfolio-seven-fawn-68.vercel.app/>

WordPress Custom Themes

WordPress | HTML5 | CSS3 | Responsive Web Design

- Built custom WordPress themes with responsive, user-friendly layouts.
- Applied frontend best practices to improve readability, navigation, and cross-device compatibility.

EDUCATION

Bachelor of Science in Information Technology (Honors)

University of Lahore | Lahore, Pakistan

Oct 2022 – 2026 | CGPA: 3.01

- Final Year Project: On-Demand Home Services Platform (On-Demand-Services-App) — React.js & Django
